The Company has categorized its assets and liabilities into the three-level fair value hierarchy based upon the priority of the inputs to the respective valuation technique. The following summarizes the type of assets and liabilities owned by the Company that are included within the three-level fair value hierarchy presented in the table above:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets and liabilities: This category is generally quotes for debt or equity securities actively traded in exchange or over-the-counter markets.
